Note the extensions are handed.  
Slide the extension inside the Blockdolly as shown  
and align the 2 outer holes

Insert the 2 outer screws and do up finger  
tight

Insert the outer screw, check the extension is  
inline then tighten all screws with firm but not  
excessive force

**You must use  
stabilisers when  
using Blockdolly  
with or without  
extensions fitted as  
line tension may  
result in the profile  
being pulled over**
